### CHINA MAY ASK A YANKEE LOAN

Wu Ting Fang and New York  
Financiers Are Con-  
sulting.

NEW YORK, May 9.—A special to  
the Herald from Washington says:  
American capitalists may be asked by  
the Chinese government to subscribe  
to the loan it will have to negotiate to  
pay the indemnity to be exacted by the  
powers.

Wu Ting Fang, the Chinese minister,  
and New York financiers have been in  
communication on this subject. The  
communications are entirely unofficial  
and have therefore been kept very  
quiet. Nevertheless, it has developed  
that the idea has been favorably re-  
ceived in New York. It is, of course,  
impossible to say what the outcome  
will be, as international politics will  
have an important influence upon the  
placing of the loan, but intelligent  
Chinamen favor obtaining subscrip-  
tions from the United States.

The Chinese government is well  
aware that provided the "open door"  
be conceded the United States at this  
moment would not go beyond a formal  
protest in case of the division of Chi-  
na. The situation would be changed,  
however, if Chinese bonds valued at  
millions of dollars, were held by American capitalists.

All that the Chinese minister has  
done has been to make inquiries, and  
American financiers have given an in-  
dication of what they are willing to  
do. The loan will be very large—Special  
Commissioner Rockhill has cabled  
to the State Department that the min-  
isters had agreed upon \$337,000,000, but  
he is still trying to secure a reduction  
of this amount—but the lower it is the  
easier it will be for China and the  
better the terms upon which she can  
negotiate it.

Foreign representatives in Peking  
will undoubtedly bring strong pressure  
to bear in behalf of the placing of the  
loan in their respective countries. Mr.  
Rockhill is not expected, however, to  
join in such a movement. It is within  
the range of possibilities that China,  
in order to satisfy all the powers, may  
decide to place in each country a loan  
equal to the indemnity due that par-  
ticular nation. In this event the share  
of the United States will probably be  
less than \$20,000,000, and perhaps only  
\$12,500,000 in case its proposal for each  
power to reduce its indemnity should  
be adopted.

### Crazed by Christian Science.

STANTON, Neb., May 6.—Mrs. Kate  
A. Chells is locked in the jail here with  
a charge of insanity against her. She  
is a Christian Scientist, and yesterday  
went to the cemetery, where her three  
children are buried, and made an ef-  
fort to raise them from their graves.  
The woman called loudly the names of  
her dead children, and when the graves  
failed to open she repeated the orders  
and stamped her feet in rage. In this  
pitiful plight she was found by the  
authorities. She refused to leave the  
cemetery and had to be forced away.  
Though a charge of insanity has been  
filed against her, she says her reason  
is good, and in everything else it seems  
to be.

### THE DUTY ON LAVA ROCK

The Material is Now Coming Into  
General Use on the  
Mainland.

NEW YORK, May 9.—A decision has  
been made by the board of classifica-  
tion of the United States general ap-  
praisers upon an important, but not  
generally understood import. It was  
relative to the status of lava rock un-  
der the present tariff. The lava rock  
in question was hewn and squared, and  
the collector in San Francisco assessed  
a duty of 50 per cent ad valorem un-  
der the provision for "other building  
stone, hewn." The importer, the Giant  
Power Company, protested, claiming a  
lower duty under one of four different  
classifications.

The board overrules the protest, and  
in rendering this decision reverses a  
previous decision of its own, which had  
been affirmed by the United States Cir-  
cuit Court for the Southern District of  
New York. General Appraiser Fischer,  
who wrote the opinion for the board  
in the present case, says that at the  
time of the previous case was heard  
no evidence was submitted to show  
that lava rock was used for building  
stone anywhere in the United States.  
In the present case, however, the tes-  
timony submitted proved conclusively  
that lava rock is now used largely for  
building purposes in this country.

### THE KING A MENTOR.

Wants Royal Household at Windsor  
to Purify Itself.

NEW YORK, May 4.—A cable to the  
World from London says: The royal  
household at Windsor Castle has just  
received fresh proof of the King's de-  
termination to abolish the lax system  
which grew up under his mother. The  
King has dug up from some forgotten  
corner an ancient black-letter docu-  
ment prescribing "twelve good rules  
found in the study of Charles I of  
blessed memory." These rules King  
Edward has had framed and placed in  
a prominent position in the castle.

Here are the rules:  
"Profane no Divine ordinance.  
Touch no state matters. Urge no  
health. Pick no quarrel. Maintain no  
ill opinion. Encourage no vice. Re-  
peat no grievances. Reveal no secrets.  
Make no comparisons. Keep no bad  
company. Make no long meals. Lay  
no wagers. These rules observed will  
maintain thy place and everlasting  
gain."

The gambling mania rages violently  
among the high and low in the royal  
household, and Windsor supports more  
bookmakers than any town of its size  
in England. The posting of these or-  
dinances provokes considerable resent-  
ment in the household, although the  
King has signified that they consti-  
tuted the best rule of life for his royal  
servants and others that he had yet  
seen.

### Theater Collapses.

SALT LAKE, May 9.—The north wall  
of the Salt Lake Theater, corner of First  
South and State streets, collapsed about  
2 o'clock this morning. So far as known  
no one was hurt. The building, which  
probably will have to be torn down, was  
built nearly forty years ago in the days  
of Brigham Young, and was one of the  
landmarks of the city.
